

Mount Kenya University 21st Graduation

RWANDA CLASS OF JULY 2022

Message from the Vice-Chancellor Designate

I take this opportunity to congratulate the class of July 2022 as well as their parents and guardians. As an institution, we laud the Rwandan government for providing an enabling operating environment. We appreciate the steadfast support of our business associates and the contribution of our diligent staff through their resilience and fortitude.

As a team, we are privileged and proud to have played a role in preparing the graduating class to thrive in a highly competitive world. They join expanding MKU alumni who stand out in the job market for their high employability. Others go on to create their enterprises and become employers.

Producing such high-quality graduates is the outcome of the university's steady investments in quality education through expansive facilities and modern technology enabling our knowledgeable and experienced faculty to deliver rich, market-driven curricula.

To make learning as practical as possible, the university keeps building the necessary infrastructure and also procuring relevant equipment. We are currently building a hospitality training hotel on our campus grounds. This facility will help sharpen our hospitality and tourism students to substantially contribute toward the growth of one of the country's major sectors. With such facilities, Rwandan students need not travel outside the country to study hospitality and tourism.

I would like to challenge all students who graduate today to be good ambassadors of MKU. By completing your studies, you have already demonstrated that you are responsible human beings, capable of pursuing a noble mission to a conclusion. Now, go forth and use the knowledge, skills and attitudes you have acquired to develop yourselves, your communities and the nation at large. Remember that, as the Bible says, to whom much is given (in the form of quality education), much will be required!

Prof. Edwin Odhuno, PhD
